

## Lisianthus - doubles/semi doubles

GHP has a large range of excellent Lisianthus varieties, bred by Miyoshi Japan and Global Flowers Denmark. The main varieties from Global are the Super Magic (Full double) and Magic (Semi double) series along with the single flowered variety called Tornado.

Diamond Peach and Diamond White are excellent later flower varieties from Miyoshi, with strong stems, many flower buds. Double Pink is the best double true pink we have seen. The Papillion series has superb new colours, is very strong in the stem and is a later flowering variety. Luna Rose is a newer double flowering variety with a rose pink colour. The single flowering varieties that stand out are Neo Violet (purple), Haraka (rose pink/white bicoulor), Rococo Marine (blue/white bicoulor) and Rococo Peach (pink/white bicoulor).
