

## Helianthus (Sunflowers)

We have an excellent range of cut flower sunflowers which include excellent winter/spring flowering varieties such as 'Sunrise' and 'Supernova', and of course our best summer flowering variety 'Tiffany'. Varieties like 'Sunrise' and 'Supernova' can be easily grown all year round, while 'Tiffany' is a true summer flowering variety. A new double flowering variety called 'Ecstasy' gives a new dimension to our sunflower varieties. It is important that you grow the best sunflower for the correct season, especially to maintain the head size. Please contact us to ensure you sow the correct sunflower for the season. Remember to control mice and birds before sowing the sunflower seed.

Tiffany	QFP®	Deep orange/yellow (summer)	1000s	\$45.00	
Sunrise	QFP®	Oval golden yellow petals,dk centre	G	\$0.65	Approx16 seeds/g
