

Hydrangea

Most of these new varieties of hydrangeas have come from Europe, where a great deal of breeding has taken place for new colours and flower types for the cut flower industry. GHP is in a privileged position to be given the opportunity to work with all these new varieties for the New Zealand market.

In depth trials have taken place to ensure these varieties could be grown well under New Zealand's many climatic conditions. Some did not come up to expectations that we demanded, but a number have. We are excited with the results and believe that new and existing markets both for export and New Zealand sales will be strengthened with these new hydrangeas.

Hydrangea 'AB Green Shadow' (PVR protection)

This is a very beautiful hydrangea. The colour of the flowers is greenish-red changing with age to lime green. Good winter hardiness. Will produce quality blooms both outdoors and in the greenhouse. Will grow in all soil types.

Non-propagation agreement. QFP®

Hydrangea Antique Vision®

Flowers are a pink/red changing quickly to a high quality green antique. Very tough flowers. Excellent variety for outside in the open (not advised for greenhouse production).

Non-propagation agreement

Hydrangea Colour Vision®

A beautiful hydrangea that has brilliant red foliage in late summer. The flower is purplish pink with tough flower petals.

Both the flower and foliage can be sold. Good winter hardiness. Try to avoid heavy clay type soils.

Non-propagation agreement

Hydrangea Duo Vision®

A dark red bicolour with whitish green edge. Tough flower petals. Can be grown under minimal shade.

Excellent antique variety. Mid season flowering.

From Myoshi. Non-propagation agreement

Hydrangea Romantic Vision®

A dark crimson red bicolour with a white edge. Tough flower petals. Good winter hardiness. Mid season flowering.
Non-propagation agreement

Hydrangea macrophylla 'Vision® series'
